

Foam Edge Protector Corners & Strips

PUB095

v.3 07/2019

Check best prices:
lionpic.co.uk

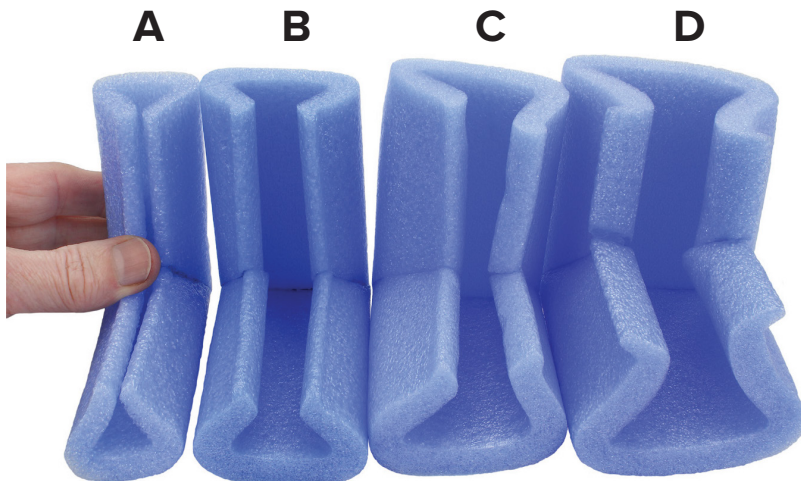

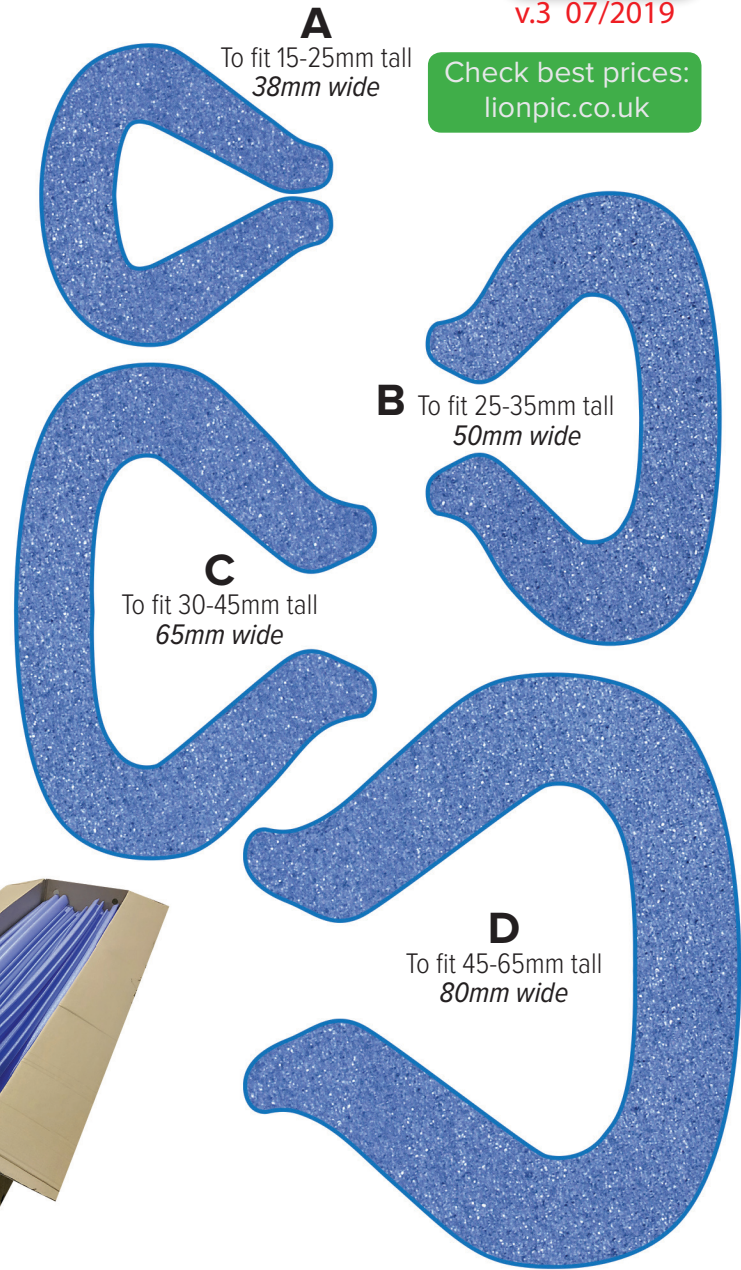

We have improved our range of protective foam edge Strips and pre-formed Corners. Made from blue polyethylene foam of just the right strength to absorb bumps and shocks while framed art is in transit. Cut to length or notch with a breadknife or similar. It clips onto the frame moulding and can be secured with handywrap, 2884.

- Four profiles, to suit frame mouldings from 15mm to 65mm tall
- Pre-formed Corners match the profiles of the Strips. Strips are 2m
- Corner packs, according to profile size

The new range of foam Strips and Corners comes in four profile sizes:

- A** For mouldings 15 - 25mm tall
- B** For mouldings 25 - 35mm tall
- C** For mouldings 30 - 45mm tall
- D** For mouldings 45 - 65mm tall

Ask for sample bag, 9944, with one of each corner and a piece of each Strip.
See Lion website for more info.

All Lengths are 2m. All measurements are approx.
